The rules in this chapter are adopted by the medical examining board pursuant to the authority delegated by ss. 15.08 (5), 227.11, and 448.40, Stats., and govern application and examination for license to practice medicine and surgery under s. 448.04 (1) (a), Stats., (hereinafter “regular license”).

History: Cr. Register, January, 1994, No. 457, eff. 2–1–94.

Med 1.02 Applications and credentials. Every person applying for regular license to practice medicine and surgery shall make application therefor on forms provided for this purpose by the board and shall submit to the board the following:

- (1) A completed and verified application form.
- (2) Verified documentary evidence of graduation from a medical or osteopathic school approved by the board. The board recognizes as approved those medical or osteopathic schools recognized and approved at the time of the applicant’s graduation therefrom by the American osteopathic association, or the liaison committee on medical education, or successors. If an applicant is not a graduate of a medical school approved by the board, but is a graduate of a medical school recognized and listed as such by the world health organization of the united nations, such applicant shall submit verified documentary evidence of graduation from such school and also verified documentary evidence of having passed the examinations conducted by the educational council for foreign medical graduates or successors, and shall also present for the board’s inspection the originals thereof, and if such medical school requires either social service or internship or both of its graduates, and if the applicant has not completed either such required social service or internship or both, such applicant shall also submit verified documentary evidence of having completed a 12 month supervised clinical training program under the direction of a medical school approved by the board.
- (3) (a) Verification of satisfactory completion by the applicant of 24 months of postgraduate training in one or more programs accredited by the Accreditation Council for Graduate Medical Education, the American Osteopathic Association or a successor organization; or documentary evidence that the applicant is currently enrolled in a postgraduate training program accredited by the Accreditation Council for Graduate Medical Education, or the American Osteopathic Association or a successor organization and has received credit for 12 consecutive months of postgraduate training in that program and an unrestricted endorsement from the postgraduate training director that

the applicant is expected to complete at least 24 months of postgraduate training.

(b) If an applicant is a graduate of a foreign allopathic or osteopathic medical school, then the applicant must provide a verified certificate showing satisfactory completion of 24 months of postgraduate training in one or more programs accredited by the Accreditation Council for Graduate Medical Education, the American Osteopathic Association or a successor organization; or documentary evidence that the applicant is currently enrolled in a postgraduate training program accredited by the Accreditation Council for Graduate Medical Education, or the American Osteopathic Association or a successor organization and has received credit for 12 consecutive months of postgraduate training in that program and an unrestricted endorsement from the postgraduate training director that the applicant is expected to complete at least 24 months of postgraduate training.

(c) If the applicant is a graduate of a foreign allopathic or osteopathic medical school and has not completed 24 months of postgraduate training approved by the board and is not currently enrolled in a postgraduate training program but the applicant has other professional experience which the applicant believes has given that applicant the education and training substantially equivalent to 24 months of postgraduate training, then the applicant may submit the documented education and training demonstrating substantially equivalent education and training. The board will review the documented education and training and may make further inquiry, including a personal interview of the applicant, as the board deems necessary to determine whether substantial equivalence in fact exists. The burden of proof of such equivalence shall lie upon the applicant. If the board finds that the documented education and training is substantially equivalent to the required training and experience the board may accept the experience in lieu of requiring the applicant to have completed 24 months of postgraduate training in a program approved by the board.

(d) The board approves of the training programs accredited by the following organizations: the Accreditation Council for Graduate Medical Education, the American Osteopathic Association, the Liaison Committee on Medical Education, the American Association of Colleges of Osteopathic Medicine, and the National Joint Committee on Approval of Pre-Registration of Physician Training Programs of Canada, or their successor organizations.

(4) An unmounted photograph, approximately 8 by 12 cm., of the applicant taken not more than 60 days prior to the date of application and bearing on the reverse side the statement of a notary public that such photograph is a true likeness of the applicant.

(5) A verified statement that the applicant is familiar with the state health laws and the rules of the department of health services as related to communicable diseases.

(6) The required fees made payable to the Wisconsin department of safety and professional services.

(3) (b), and an open book examination on statutes and rules governing the practice of medicine and surgery in Wisconsin. In addition, an applicant may be required to complete an oral interview if the applicant:

1. Has a medical condition which in any way impairs or limits the applicant's ability to practice medicine and surgery with reasonable skill and safety.

3. Has been disciplined or had licensure denied by a licensing or regulatory authority in Wisconsin or another jurisdiction.
4. Has been found to have been negligent in the practice of medicine or has been a party in a lawsuit in which it was alleged that the applicant had been negligent in the practice of medicine.
5. Has been convicted of a crime the circumstances of which substantially relate to the practice of medicine.
6. Has lost, had reduced or had suspended his or her hospital staff privileges, or has failed to continuously maintain hospital privileges during the applicant's period of licensure following post-graduate training.
7. Has been graduated from a medical school not approved by the board.

11. Has not practiced medicine and surgery for a period of 3 years prior to application, unless the applicant has been graduated from a school of medicine within that period.

(b) An application filed under s. Med 1.02 shall be reviewed by an application review panel of at least 2 board members designated by the chairperson of the board. The panel shall determine whether the applicant is eligible for a regular license without completing an oral interview.

(c) All examinations shall be conducted in the English language.

(d) Written and computer-based examinations and oral interviews as required shall be scored separately and the applicant shall achieve a passing grade on all examinations to qualify for a license.

(2) The board will notify each applicant found eligible for examination of the time and place scheduled for that applicant's examinations. Failure of an applicant to appear for examinations as scheduled will void that applicant's application and require the

applicant to reapply for licensure, unless prior scheduling arrangements have been made with the board by the applicant.

(3) (a) The board accepts the FLEX examination administered on or before December 31, 1993, as its written examination and requires a score of not less than 75.0 on each component of the 2-component FLEX examination administered on or after January 1, 1985. Every applicant shall have taken the complete 2-component examination the first time the applicant was admitted to the FLEX examination.

(b) Commencing January 1, 1994, the board accepts the 3-step USMLE sequence as its written or computer-based examination and administers step 3 of the sequence. Minimum standard passing scores for each step shall be not less than 75.0. Applicants who have completed a standard M.D. training program shall complete all 3 steps of the examination sequence within 10 years from the date upon which the applicant first passes a step, either step 1 or step 2. Applicants who have completed a combined M.D. and Ph.D. medical scientist training program shall complete all 3 steps of the examination sequence within 12 years from the date upon which the applicant first passes a step, either step 1 or step 2. Applicants who have passed a step may not repeat the step unless required to do so in order to comply with the 10-year or 12-year time limit. If the applicant fails to achieve a passing grade on any step, the applicant may apply for and be reexamined on only the step failed according to the reexamination provisions of s. Med 1.08 (1).

Note: The 10-year or 12-year time limit applies to all applicants, regardless of the date of application, including applicants denied under the prior 7-year or 9-year time limit who submit a new application for licensure.

(c) Prior to the January 1, 2000, the board shall waive completion of steps 1 and 2 of the USMLE sequence for applicants who have passed FLEX component 1; and shall waive step 3 of the USMLE sequence for applicants who have passed FLEX component 2. Prior to January 1, 2000, the board shall waive any step of the USMLE sequence for applicants who have passed the corresponding part of the NBME examination.

Note: The following table represents application of s. Med 1.06 (3) (c)

USMLE STEP 1	USMLE STEP 2	USMLE STEP 3
FLEX COMPONENT 1 or NBME PART 1	FLEX COMPONENT 1 or NBME PART 2	FLEX COMPONENT 2 or NBME PART 3

(d) The board may waive the requirement for written or computer-based examinations required in this section for any applicant who has achieved a weighted average score of no less than 75.0 on all 3 components of the FLEX examination taken prior to January 1, 1985 in a single session in another licensing jurisdiction in the United States or Canada, in no more than 3 attempts. If the applicant had been examined 4 or more times before achieving a weighted average score of no less than 75.0 on all 3 components, the applicant shall meet requirements specified in s. Med 1.08 (2).

(e) The board may waive the requirement for written or computer-based examinations required in this section for any applicant who has achieved a score of no less than 75.0 on each of the 2 components of the FLEX examination administered on or after January 1, 1985 in another licensing jurisdiction in the United States or Canada, if the applicant achieved a score of no less than 75.0 on each of the 2 components in no more than 3 attempts. If the applicant has been examined 4 or more times before achieving a score of 75.0 on either or both components of the FLEX examination, the applicant shall meet requirements specified in s. Med 1.08 (2).

(f) An applicant who has passed all 3 components of any of the examinations of the following boards and councils may submit to

the board verified documentary evidence thereof, and the board will accept this in lieu of requiring further written or computer-based examination of the applicant.

1. National Board of Medical Examiners.
2. National Board of Examiners of Osteopathic Physicians and Surgeons.
3. Medical Council of Canada, if the examination is taken on or after January 1, 1978.
4. Medical Council of Canada, if the examination was taken before January 1, 1978, and the applicant is board certified at the time of application by a specialty board acceptable to the board.

(g) An applicant who has received passing grades in written or computer-based examinations for a license to practice medicine and surgery conducted by another licensing jurisdiction of the United States or Canada may submit to the board verified documentary evidence thereof. The board will review such documentary evidence to determine whether the scope and passing grades of such examinations are substantially equivalent to those of this state at the time of the applicant's examination, and if the board finds such equivalence, the board will accept this in lieu of requiring further written or computer-based examination of the candidate. The burden of proof of such equivalence shall lie upon the applicant.

(5) Any applicant who is a graduate of a medical school in which English is not the primary language of communication may be examined by the board on his or her proficiency in the English language.

(2) At the beginning of the examinations a proctor shall read and distribute to the applicants the rules of conduct to be followed during the examinations and the consequences of violation of the rules. An applicant who fails to achieve a passing grade may be reexamined twice at not less than 4-month intervals. If the applicant fails to achieve a passing grade on the second reexamination, the applicant may not be admitted to any further examination until the applicant reapplies for licensure and presents evidence satisfactory to the board of further professional training or education as the board may prescribe following its evaluation of the applicant's specific case.

(2) If an applicant has been examined 4 or more times in another licensing jurisdiction in the United States or Canada

before achieving a passing grade in written or computer-based examinations also required under this chapter, the board may require the applicant to submit evidence satisfactory to the board of further professional training or education in examination areas in which the applicant had previously demonstrated deficiencies. If the evidence provided by the applicant is not satisfactory to the board, the board may require the applicant to obtain further professional training or education as the board deems necessary to establish the applicant's fitness to practice medicine and surgery in this state. In order to determine any further professional training or education requirement, the board shall consider any information available relating to the quality of the applicant's previous practice, including the results of the applicant's performance on the oral interview required under s. 448.05 (6), Stats., and s.
